

# PIVOT-RP and InfoReady A Powerful Integrated Solution

So simple... so seamless.

An integrated, one-click way to combine funding discovery with automated competition management perfect for limited submission.

## Transfer curated content from Pivot-RP to InfoReady™ instantly!

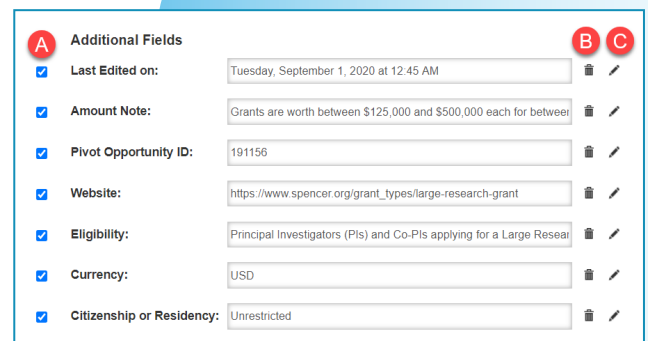

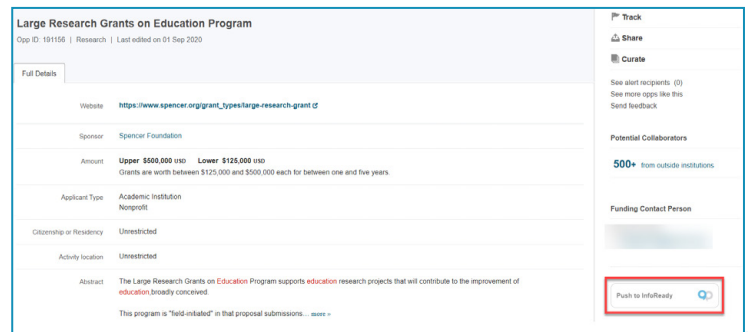

Using Pivot-RP and InfoReady™ together creates a simple, seamless workflow for administrators. Once a funding opportunity is chosen in Pivot-RP, a quick click of the “Push to InfoReady” button sends all the data needed to set up a competition and application process in InfoReady. Within seconds, the administrator is ready to post and share the opportunity with faculty and students from their InfoReady portal.

No other funding discovery resource offers this kind of simplicity and accuracy.

This integration is available at no cost for Pivot-RP and InfoReady Silver and above license holders. Implementation is quick and requires no IT support. Reach out to your Pivot-RP or InfoReady account manager to start saving time and effort now.

## Pivot-RP

Pivot-RP uniquely combines global funding sources with acclaimed scholarly profiles to match financial support to researchers and partners. The Pivot-RP editorial team goes beyond the well-known government funding agencies to gather and organize funding from international sources covering all disciplines and a wide assortment of activities from research to curriculum development and much more. The result is a simplified research process that delivers precise, consistent results.

InfoReady™, from InfoReady Corporation, automates, streamlines, and organizes the burdensome work of managing the solicitation, review and selection process of limited submission competitions, seed and pilot grants, approvals and much more. With InfoReady™, administrators quickly and effectively post opportunities, collect and route applications for review, make award decisions, and run progress reports, all from a single web-based portal. The result is increased faculty engagement, higher quality proposals, and a significant savings of time and resources.
